

Digital Learning for New Students from Year 5 - Year 9 2021-22

From August 2021 all students from Years 5 to 9 will be required to bring their own Chromebook to school to aid their learning. It is our belief that the use of digital devices across the school has led to significant benefits for learning, including better organisation, creative lesson outcomes, even more engaging lessons and the ability to research and access expert knowledge instantly. Please have a look at [this website](#) for further information on Chromebooks at JIS.

The recommended model of Chromebook should have a minimum specification of:

11" non-touchscreen	4GB RAM	32 GB eMMC storage
USB-C type power adapter	3 year warranty	10 hours battery life

Please note that these are minimum specifications and it is acceptable to purchase a Chromebook of a higher specification.

Concept Computers and CF King, in Brunei, have several Chromebooks available for purchase starting from B\$398. At the end of this letter we have attached details from both companies. **We strongly advise that you order these well in advance of school starting in August to ensure your child has a Chromebook.**

Please do not allow your child to log into the Chromebook until they have received their official school email. This simplifies how we manage and update your child's account. They will receive the details needed during their induction day at JIS.

Within the first few days of your child joining JIS they will receive some training in how to use the basic features of the Chromebook. If there are any questions at this stage please contact Mr James Seymour at help.desk@jis.edu.bn or contact the admissions team

Thank you for your support.

Best wishes

3 years warranty against manufacturer's defects, but excludes LCD screen cracks, scorch marks, heat related damage from misuse, liquid related damage from spillage or immersion, software issues, etc.

After-Sales Service (Warranty, Repairs and Replacements):

After sales service will be handled by Ontime Service Network of Concepts Group, an Authorised Service Provider appointed by Acer and Highpoint Service Network.

To claim the warranty, parents just need to bring the purchased Chromebook to Ontime Service Network. Each purchased Chromebook will have a warranty sticker at the back of the Chromebook that states its Activation Code. The representative from Ontime Service Network will then perform the necessities based on the Activation Code shown.

If by any circumstances, the Chromebook does not have the warranty sticker at the back, parents will just need to show the receipt of the purchase to the representative of the Ontime Service Network for further checking to verify the validity of the warranty for the purchased Chromebook.

On-Time Service Network will ensure to provide after-sales services that is within and beyond the warranty coverage.

Below is an estimation time of repair or replacement for typical issues with Chromebook devices that we attend to:

No.	Examples of Chromebook Typical Issues	Timeline of repair/replacement
1	Keys coming off the keyboard	24 to 48 hours max.
2	Keys go missing from the keyboard	24 to 48 hours max.
3	Specific keys are not working	24 to 72 hours max.
4	When some keys are typed, some other characters typed along with it	24 to 72 hours max.
5	Broken monitor	24 hours
6	Monitor's hinge becomes loose	24 hours
7	Mouse pad clicks (bottom corners of the pad) getting tight	24 hours

Kindly take note that estimated time of repair and replacement is subject to the availability of the spare part items.

Should there be an overwhelming number of cases with similar issues that are challenging to be resolved through repair, we may take arrangements to replace the affected Chromebook with a brand-new Chromebook on a one to one basis.
