What should I do next if I do not receive eTAC?

Since eTACs are delivered to you via SMS, it is possible that you may experience some delay in receiving the eTAC due to congestion from your mobile operator network. If you receive your eTAC after 4 minutes of performing your transaction, the eTAC received will not be valid due to security reasons, so please initiate a new transaction. If you haven't received your eTAC after a few attempts, please call our 24-Hour Client Centre at +673 265 8000 for further assistance.
